

SEED & SUPPLIES FOR NORTHERN CALIFORNIA

TURFGRASS MIXES: TURF-TYPE TALL FESCUE BLENDS

RHIZOME-ACTIVE TALL FESCUE BLEND *10 lbs/1,000 sf or 435 lbs/acre*

- 34% Grande 2 Turf-type Tall Fescue
- 33% 3rd Millennium Turf-type Tall Fescue
- 33% Rambler SRP Turf-type Tall Fescue

Best turf quality & performance of any actively rhizomatous turf-type tall fescue <http://www.pcseed.com/docs/RhizomesInTurfgrass.pdf> seed mix. Wear tolerant, salt tolerant, drought tolerant.

*

PACIFIC LIVING DWARF FESCUE BLEND *10 lbs/1,000 sf or 435 lbs/acre*

- 34% Bonsai '3000' Dwarf Fescue
- 33% 2nd Millennium Dwarf Fescue
- 33% Finesse II Dwarf Fescue

A blend of the lower, slower growing turf-type dwarf fescues. Compared to other kinds of lawn grasses, this blend requires less mowing and fertilization to maintain in top condition and produce an attractive, persistent turf with a finer texture, darker color and higher density than most other available varieties. The three top-performing varieties including 'Bonsai '3000'. Ideal for use in areas where quality appearance and lower maintenance are important. Low maintenance, drought tolerant, salt tolerant.

*

PACIFIC GOLD '90/10' *10 lbs. per 1,000 sq.ft. or 435 lbs/acre*

- 30% Bonsai '3000' Dwarf Fescue
- 30% 2nd Millennium Dwarf Fescue
- 30% Finesse II Dwarf Fescue
- 10% Midnight Kentucky Bluegrass

Pacific Living Dwarf blended with 'Midnight', the standard against which Kentucky Bluegrass varieties have been measured for almost two decades. Looks great and keeps sod knitted together. Stands up to hard play or constant foot traffic. Suitable for parks, playgrounds, home lawns and commercial turf. A match for the most popular sod products on the market. Drought tolerant, sod match.

SEED & SUPPLIES FOR NORTHERN CALIFORNIA

PACIFIC NEW CENTURY

10 lbs per 1,000 sq.ft. or 435 lbs/acre

50% Bonsai '3000' Dwarf Fescue
50% 3rd Millennium Dwarf Fescue

A blend of the latest developments in lower, slower growing turf-type dwarf fescues. Fine-textured, dark green. Requires less mowing and fertilization to maintain in top health. The most attractive and practical amenity lawn to date. Highest rated varieties in most recent Northern California NTEP trials of all turf-type tall fescues. Drought tolerant, low maintenance.

*

PACIFIC LIVING TALL Blend

10 lbs. per 1,000 sq.ft. or 435 lbs/acre

34% Grande II Turf-type Fescue
33% Cayenne Turf-type Fescue
33% Rhambler SRP Turf-type Fescue

A blend of three premium turf-type tall fescues with fine texture, vigorous growth and dark green color. Greatest drought tolerance of all cool season grasses and exceptional adaptation to shade and heat. Use in lawns, playgrounds, parks or cemeteries. Drought tolerant, wear tolerant, salt tolerant.
