

SEED & SUPPLIES FOR NORTHERN CALIFORNIA

CALIFORNIA NATIVE GRASS MIXES

- LANDMARK MIX** 36 Total Lbs./acre
- Bromus carinatus/Native “Bay Area” California Brome
 - Elymus glaucus/ “Bay Area” Blue Wildrye
 - Hordeum californicum/California Barley
 - Leymus triticoides, Native/Native Creeping Wildrye

- HABITAT MIX** 40 Total Lbs./acre
- Bromus carinatus/Native California Brome
 - Elymus glaucus/Blue Wildrye
 - Hordeum californicum/California Barley
 - Festuca idahoensis/Idaho Fescue
 - Nassella pulchra/Purple Needlegrass
 - Poa secunda/Native Pine Bluegrass

- HERITAGE MIX** 40 Total Lbs./acre
- Hordeum californicum/California Barley
 - Nassella pulchra/Purple Needlegrass
 - Nassella cernua/Nodding Needlegrass
 - Melica californica/California Oniongrass
 - Poa secunda/Native Pine Bluegrass

- NATIVE ORNAMENTAL FINE FESCUE MIX** 70 Total Lbs./acre
- Festuca rubra “Molate Blue”/Molate Blue Fescue
 - Festuca occidentalis/Western Fescue
 - Festuca idahoensis/Native Idaho Fescue

- NATIVE EROSION CONTROL MIX** 45 Total Lbs./acre
- Bromus carinatus/California Brome
 - Hordeum brachyantherum/Meadow Barley
 - Vulpia microstachys/Three Weeks Fescue
 - Trifolium wildenovii/Tomcat Clover

- **Mixes** for each of California’s major floristic provinces are available on request. Often, we suggest additional flowers, forbs and shrubs for greater biodiversity. (**Ask about ecotypes for Coastal, Valley, Foothill and Higher Elevation Mixes.**)
- **Nurse Crops:** Add 4-6 Lbs. of Vulpia microstachys or 20 Lbs. of Regreen per acre to any of these regional mixes if erosion control is to be accomplished primarily through the growth of winter germinating plants
- **Nitrogen Fixing Plants:** Add 2 Lbs. Trifolium wildenovii and/or 3 Lbs. Lupinus bicolor per acre to provide native nitrogen fixing species for additional fertility and diversity.
- **Nutrition and Growth enhancers:** Many sites benefit from 1000 lbs Biosol 7-2-3 organic fertilizer and 60 lbs of AM120 inoculant per acre.
